PROFESSIONAL SUMMARY

Third-year Bachelor of Information Technology student at Otago Polytechnic Auckland, specialising in AI and full-stack development. Builds production-grade systems spanning React frontends, Spring Boot APIs, TensorFlow ML pipelines, and Azure cloud deployments. AWS Academy Cloud Foundations certified. Two years of professional work experience alongside full-time studies. Seeking internship or graduate opportunities in software engineering and AI development.

EDUCATION

Bachelor of Information Technology

Otago Polytechnic Auckland · Auckland, NZ

2023 – Present

- ▶ Specialising in artificial intelligence, machine learning, and full-stack software engineering
- ▶ Consistently applying academic learning to real production deployments throughout the degree

WORK EXPERIENCE

Full Stack Developer & Cloud Engineer

Surender Kala & Sons Pvt. Ltd. · Remote · Freelance

Jan 2025 – Present

- ▶ Designed and deployed full-stack business website for Bhavishya® Kachi Ghani Mustard Oil, India
- ▶ Built complete CI/CD pipeline: GitHub Actions → Docker → Azure Container Registry → Azure App Service
- ▶ Developed JWT-secured admin dashboard with real-time WebSocket messaging and product catalogue
- ▶ Configured Azure PostgreSQL database with secure cloud connection
- ▶ Stack: React, Spring Boot, PostgreSQL, Azure App Service, Docker, GitHub Actions

Customer Service Representative

Z Energy · Auckland, NZ · Part-time

Jun 2023 – Present

- ▶ Delivering high-quality customer service in a fast-paced retail environment
- ▶ Handling cash management, transactions, and end-of-day reconciliation
- ▶ Managing stock, inventory, and store operations
- ▶ Balancing full-time university studies with consistent part-time employment for 2+ years

PROJECTS

AI Car Dealership Platform

dealership.shubhamkataria.com

2024 – 2025

- ▶ Production dual-platform marketplace — private seller marketplace meets managed dealership inventory

- TensorFlow CNN car brand recogniser (10 brands) and Random Forest trade-in valuator — 93% accuracy on 92,661 records, deployed on Hugging Face Spaces
- RAG-based OpenAI chatbot for real-time customer assistance and intelligent car recommendations
- WebSocket real-time buyer–seller messaging, full purchase & payment flow, JWT-secured multi-role admin panel
- Stack: React 19, Spring Boot, PostgreSQL, TensorFlow, scikit-learn, OpenAI API, Python Flask, Render

Shubham AI Studio

shubham-ai-chatbot.netlify.app

2024

- All-in-one AI platform with OpenAI-powered chatbot and six ML tools for real-world tasks
- Stack: React, Spring Boot, PostgreSQL, OpenAI API, Netlify

Preloved Product Marketplace

[Firebase / React](#)

2024

- React-based e-commerce platform for pre-owned goods with real-time Firebase sync and guest browsing
- Stack: React, Node.js, Firebase

TECHNICAL SKILLS

Languages	Python, Java, JavaScript, C#, SQL, R
Frontend	React, HTML & CSS, Vite, React Router, WebSocket (SockJS / STOMP), Responsive Design
Backend	Spring Boot, Spring Security, Node.js, REST API, JWT Auth
Databases	PostgreSQL, MySQL, Firebase
AI & ML	TensorFlow, scikit-learn, OpenAI API, RAG, CNN, Random Forest, NLP, Flask, Pandas, NumPy
Cloud & DevOps	AWS (Cloud Foundations), Azure App Service, Azure Container Registry, Docker, GitHub Actions, CI/CD, Render, Netlify
Tools	Git, GitHub, Git LFS, Postman, VS Code, IntelliJ IDEA, Hugging Face Spaces

CERTIFICATIONS & ACHIEVEMENTS

AWS Academy Graduate — Cloud Foundations

[Amazon Web Services](#)

December 2025

- Completed AWS Academy Cloud Foundations — covers AWS Architecture, Core Services, Pricing and Support
- Badge: credly.com/badges/138dcb38-25b3-41b9-9942-fefa6396c47a

Machine Learning A-Z™: Python & R In Data Science

[Udemy](#)

2025

- Comprehensive ML course — regression, classification, clustering, deep learning, and NLP

Production Deployment on Microsoft Azure

[Personal Project](#)

2025

- Architected and deployed Spring Boot app on Azure using Docker, ACR, and GitHub Actions CI/CD pipeline

ML Models Deployed on Hugging Face Spaces

2025

Personal Project

- Deployed TensorFlow CNN and Random Forest models as live APIs — 93% accuracy on 92,661 training records
