PROFESSIONAL SUMMARY

A motivated and skilled Bachelor of IT graduate with a passion for full-stack development and machine learning. Proven ability to build and deploy web applications using modern technologies like React and Node.js, and to apply data structures and algorithms to solve complex problems. Seeking a developer role to contribute to innovative software solutions.

WORK HISTORY

Customer Service Representative, 01/2024 to Current
Keith Murray - Ponsonby, Auckland

- Resolved customer complaints with empathy, resulting in increased loyalty and repeat business.
- Collaborated with team members to develop best practices for consistent customer service delivery.
- Contributed to sales growth by upselling products and services based on individual customer requirements.

EDUCATION

Bachelor of Information Technology : Bachelor of Information Technology
Otago Polytechnic - Auckland, NZ

EXTRACURRICULAR ACTIVITIES

I recently joined a Boxing Club to stay physically active as I was involved in sports before.

I currently planning to join an internship to gain practical experience in the IT Field.

CERTIFICATIONS

- Machine Learning A-Z: AI, Python and R -
